We are the Future Pioneers

- **It is good to look to the past to gain appreciation for the present and perspective for the future. It is good to look upon the virtues of those who have gone before, to gain strength for whatever lies ahead. It is good to reflect upon the work of those who have labored so hard and gained so little in this world, but out of whose dreams and early plans, so well nurtured, has become a great harvest of which we are the beneficiaries.**
